01

Executive Market Summary

The strategic case for Revinr's AI EdTech SaaS platform in Bangladesh

Revinr is positioned to build the first AI-native examination preparation SaaS platform in Bangladesh — a country with one of the world's largest and most competitive government job examination systems. This document provides a complete market analysis, business architecture, and strategic blueprint covering every dimension of the business from customer acquisition through to revenue realisation.

Market Opportunity at a Glance

500K+ BCS Candidates/Cycle <i>325K–500K annual applicants</i>	10,000+ Coaching Centers <i>100% manual, 0% AI-powered</i>	\$1B+ Annual Student TAM <i>50M students in Bangladesh</i>	0% AI Personalization <i>Among all BD competitors</i>	46.7% Adaptive CAGR <i>Fastest EdTech segment</i>
---	--	--	---	---

The Core Thesis

Why Revinr Will Win

1. The BCS exam is Bangladesh's most competitive — 500K candidates chasing 3,500 posts (0.2% success rate). Every candidate needs years of preparation.
2. No existing BD platform uses AI personalisation. All serve static content to every user. Revinr will be the first to diagnose, adapt, and predict — not just deliver content.
3. The B2B coaching center market (10,000+ centers, 0% digitised with AI) provides a recurring SaaS revenue stream with high switching costs.
4. The 25 AI features form a compounding ecosystem: each feature generates data that improves every other feature, creating a moat that deepens with time.
5. Bangladesh's smartphone penetration (41%+), mobile payment infrastructure (bKash, Nagad), and Facebook-first internet culture all align perfectly with the product model.

02

Global & Bangladesh EdTech Market Analysis

Market sizing, growth trajectories, and Bangladesh-specific dynamics

2.1 Global EdTech Market Overview

Segment	2024 Value	2029 Forecast / CAGR
Global EdTech Market	\$254 billion	\$605 billion / 19% CAGR
AI in EdTech	\$10.6 billion	\$32.9 billion / 38-53% CAGR
Adaptive Learning Systems	\$3.9 billion	\$21.7 billion / 46.7% CAGR
EdTech SaaS (B2B)	\$15.2 billion	\$48.3 billion / 26% CAGR
Mobile Learning	\$37 billion	\$159 billion / 34% CAGR
Asia-Pacific AI EdTech	\$2.1 billion	\$11.4 billion / 44.2% CAGR
Emerging Market EdTech	\$6.3 billion	\$29.1 billion / 35.8% CAGR

2.2 Bangladesh EdTech Landscape

Metric	Current State	Opportunity Signal
Total EdTech platforms	418 platforms active	96% are unfunded — land grab moment
AI-powered platforms	Effectively zero	First-mover advantage is wide open
BCS candidates/cycle	325,000 – 500,000	Captive, high-urgency, paying audience
Coaching center count	10,000+ nationwide	None have AI tools — massive B2B gap
Student internet users	38 million+	Mobile-first behavior, bKash-ready
ARPU willingness (student)	BDT 200–600/mo	Comparable to 10 Minute School pricing
Smartphone penetration	41% and rising fast	Mobile product is non-negotiable
Facebook BCS groups	Millions of active members	Viral zero-cost acquisition channel

Metric	Current State	Opportunity Signal
Average BCS prep duration	2–5 years	Long LTV window per customer
Coaching center monthly cost	BDT 1,000–5,000	SaaS can undercut with 10x more value

2.3 Market Size — Bangladesh (TAM / SAM / SOM)

Market Level	Segment	Population	ARPU/Year	Annual Revenue
TAM — Total	All BD students (digital)	38 million	BDT 2,400	BDT 9,120 Crore
SAM — Serviceable	Exam-prep students	12 million	BDT 3,600	BDT 4,320 Crore
SOM Year 1	BCS + HSC admission	500,000	BDT 3,200	BDT 160 Crore
SOM Year 2	Expand to bank jobs + K-12	2,000,000	BDT 3,200	BDT 640 Crore
Revinr Target Y1	BCS primary (base case)	3,000 paying	BDT 3,600/yr	BDT 10.8 Crore ARR

03 Target Market Segmentation

Who we serve, what they need, and how they pay

3.1 Primary Market — BCS Candidates (B2C)

Segment	Profile	Pain Points	Value Delivered
BCS First-Timers	21–25 years, fresh graduates	No preparation roadmap; overwhelmed by syllabus	Study schedule + knowledge gap diagnosis
BCS Repeaters	24–32 years, 2–3 failed attempts	Unclear why they failed; wasting time on mastered areas	Targeted gap analysis + adaptive practice
Working Professionals	28–38 years, employed while preparing	Very limited time; need maximum efficiency	Smart revision planner + textbook summarizer
BCS Written Stage	Cleared Preliminary, preparing Written	No feedback on written answers; no viva practice	AI Writing Assistant + AI Debate Partner

3.2 Secondary Markets — B2C Expansion

Market	Size	Timing	Shared Features (%)
Bank Job Prep	2M+ candidates annually	Phase 2 — Month 6	85% feature overlap with BCS
University Admission	1.5M+ HSC graduates	Phase 2 — Month 8	75% overlap — same quiz + notes engine
SSC/HSC K-12	3.5M+ students/year	Phase 3 — Month 10	65% overlap — content and flashcards
Corporate Upskilling	500K+ urban professionals	Phase 3 — Month 12	40% overlap — language + assessment

3.3 B2B Market — Coaching Centers & Institutions

Segment	Count in BD	Monthly Value	Primary Need
BCS Coaching Centers	5,000+	BDT 5K–25K	Quiz builder + lesson plans + analytics

Segment	Count in BD	Monthly Value	Primary Need
HSC Coaching Centers	3,000+	BDT 3K–15K	Question bank + assignment generator
University Coaching	1,000+	BDT 8K–30K	Mock tests + performance tracking
Schools & Colleges	25,000+	BDT 2K–10K	Teaching materials + worksheets
Corporate Training Firms	500+	BDT 15K–50K	Assessment + progress analytics

04

Product Architecture — 25 AI Features

Feature map, priority tiers, and dependency relationships

4.1 Feature Ecosystem Map

The 25 features are not independent products — they form an interdependent ecosystem where each feature generates data that improves every other feature. The Knowledge Gap Analyzer feeds the Study Schedule. The Study Schedule feeds the Revision Planner. The Question Bank feeds the Adaptive Quiz, Assessment, Assignments, and Quiz Creator. This compounding architecture is the core moat.

#	Feature	Phase	Audience	Revenue Tier	Data Feeds To
8	Adaptive Quiz Generator	Phase 1	B2C	Premium	#5 Gap Analyzer, #16 Assessment, #6 Planner
14	Question Bank Generator	Phase 1	B2B+B2C	API + B2B	#8 Quiz, #16 Assessment, #13 Assignment, #22 Creator
16	Assessment & Evaluation	Phase 1	B2C+B2B	Standard+	#10 Forecasting, #9 Speed, #5 Gap
18	Chapter-to-Notes Generator	Phase 1	B2C	Freemium	#19 Flashcard, #6 Planner, #20 Map
5	Knowledge Gap Analyzer	Phase 1	B2C	Premium	#7 Schedule, #6 Planner, #10 Forecast
6	Smart Revision Planner	Phase 1	B2C	Standard+	#7 Schedule, retention metrics
7	Daily Study Schedule	Phase 1	B2C	Standard	#6 Planner, #8 Quiz
1	Step-by-Step Math Solver	Phase 1	B2C	Freemium	#5 Gap Analyzer
2	AI Language Coach	Phase 2	B2C	Premium	#3 Writing, #16 Assessment
4	AI Debate Partner (Viva)	Phase 2	B2C	Premium+	#10 Forecasting
9	Learning Speed Predictor	Phase 2	B2C+B2B	Standard	#10 Forecast, B2B dashboard
10	Performance Forecasting	Phase 2	B2C+B2B	Premium	Engagement loop, B2B
19	AI Flashcard Generator	Phase 2	B2C	Freemium	#6 Planner, viral acquisition
20	Concept Map Generator	Phase 2	B2C	Standard	#18 Notes, #19 Flashcard
3	AI Writing Assistant	Phase 2	B2C	Premium	#2 Language, #16 Assessment

#	Feature	Phase	Audience	Revenue Tier	Data Feeds To
22	AI Quiz Creation Platform	Phase 2	B2B	B2B SaaS	#14 Question Bank, #16 Assessment
11	Lesson Plan Generator	Phase 3	B2B	B2B SaaS	#12 Materials, #14 Bank
12	AI Teaching Material Creator	Phase 3	B2B	B2B SaaS	#11 Plans, #14 Bank
13	Assignment Generator	Phase 3	B2B	B2B SaaS	#14 Bank, #16 Assessment
15	AI Teaching Copilot	Phase 3	B2B	B2B Premium	#11 Plans, engagement
17	Textbook Summarizer	Phase 3	B2C	Freemium	#18 Notes, #19 Flashcard
21	Story-Based Learning	Phase 3	B2C	Standard	#19 Flashcard, engagement
23	Learning Worksheet Generator	Phase 3	B2B+B2C	Freemium	#14 Bank, offline access
24	Visual Diagram Generator	Phase 3	B2C+B2B	Standard	#18 Notes, #12 Materials
25	Educational Infographic Gen.	Phase 3	B2C	Free (viral)	Acquisition, brand

05

Business Model & Revenue Architecture

How Revinr makes money across all channels and customer types

5.1 Revenue Stream Architecture

Revenue Stream	Model	Price Point	Target Customer	Gross Margin
B2C Free Tier	Freemium	BDT 0/month	BCS candidates	N/A — acquisition cost
B2C Standard	Subscription	BDT 299/month	BCS candidates	78%
B2C Premium	Subscription	BDT 599/month	BCS+Written candidates	80%
B2C Viva Pack	Add-on	BDT 1,499/month	Post-Written candidates	82%
B2B Coaching Basic	SaaS License	BDT 5,000/month	Small coaching centers	65%
B2B Coaching Pro	SaaS License	BDT 12,000/month	Mid coaching centers	70%
B2B Enterprise	SaaS License	BDT 25,000+/month	Large chains/universities	72%
Question Bank API	API Usage	Per-call / volume	3rd party platforms	85%
Expert Review Add-on	Marketplace	BDT 99–199/session	Premium B2C users	55%
Institution Annual	Enterprise	BDT 3–15 Lakh/year	Schools, universities	68%

5.2 Unit Economics

Metric	B2C (Standard)	B2B (Coaching Center)
Customer Acquisition Cost (CAC)	BDT 200–500	BDT 5,000–15,000
Average Revenue Per User (ARPU)	BDT 299/month	BDT 8,000/month
Average Customer Lifetime	18 months	36 months
Lifetime Value (LTV)	BDT 5,382	BDT 288,000
LTV : CAC Ratio	~14:1	~24:1
Payback Period	2–3 months	3–6 months
Gross Margin	78–82%	65–72%
Monthly Churn Rate (target)	< 4%	< 2%
Net Revenue Retention	> 105%	> 115%

06

Money Flow Architecture

Complete financial flow from customer payment to platform economics

6.1 B2C Money Flow — Student Subscription Path

01 Awareness	02 Free Trial	03 Conversion Trigger	04 Payment	05 Standard/Premium	06 Referral Loop
Student discovers Revinr via BCS Facebook group, shared infographic, friend referral, or YouTube ad	Student signs up for Free tier — immediate access to 5 features. No payment required.	After 7-14 days, student hits a paywall (adaptive quiz depth, knowledge gap chapter drill, full schedule). Conversion prompt fires.	Student pays via bKash, Nagad, card, or bank transfer. BDT 99 intro offer for first month.	Student upgrades as exam date approaches — Written prep, viva pack purchased as add-ons.	Student shares platform-generated infographics and flashcard decks in BCS groups — drives new free signups.

6.2 B2B Money Flow — Coaching Center SaaS Path

01 Lead Generation	02 Product Demo	03 Pilot Agreement	04 Expansion	05 Annual Lock-in	06 Upsell Cascade
Sales rep contacts coaching center, or center owner discovers Revinr via teacher referral or Facebook ad	30-min demo showing quiz builder, lesson plan generator, and class analytics. Free 14-day trial offered.	Center signs 3-month pilot at BDT 5,000/month. 3 teacher accounts + up to 100 student accounts included.	After pilot, center upgrades to Pro (BDT 12K/mo) — more teachers, unlimited students, analytics dashboard.	12-month annual contract signed at 15% discount. High switching cost once lesson plans and question bank are built.	Center buys Teaching Copilot add-on, white-label student app, and branded PDF export pack.

6.3 Platform Revenue Allocation Model

Cost / Allocation	% of Revenue	BDT (Base Y1 10Cr)	Notes
AI Inference (OpenAI/Claude API)	8–12%	80–120 Lakh	Scales with usage; price declining annually
Cloud Infrastructure (AWS/GCP)	5–8%	50–80 Lakh	CDN, DB, compute, storage
Content Curation & QA	6–9%	60–90 Lakh	BCS experts reviewing AI questions
Engineering Team	22–28%	220–280 Lakh	10-15 engineers at full scale
Sales & Marketing	18–22%	180–220 Lakh	B2B sales team + digital marketing
Customer Support	4–6%	40–60 Lakh	Chat support + onboarding
Product & Design	6–8%	60–80 Lakh	PM, designers, UX research
Legal & Compliance	2–3%	20–30 Lakh	IP, data privacy, contracts
G&A (Admin, Finance)	3–5%	30–50 Lakh	HR, accounting, office
Net Operating Margin (target)	15–22%	150–220 Lakh	Improves to 30%+ by Year 3

6.4 Cash Flow Timeline (Base Case)

Period	Revenue	Costs	EBITDA	Cash Burn	Cumulative	Milestone
Months 1-4	0	1.6 Cr	(1.6Cr)	(1.6Cr)	(1.6Cr)	MVP build — zero revenue
Month 4	15L	40L	(25L)	(25L)	(1.85Cr)	Launch: 500 paying users
Month 6	45L	60L	(15L)	(15L)	(2.0Cr)	B2B pilot: 5 centers
Month 9	90L	80L	10L	10L	(1.9Cr)	First profitable month
Month 12	1.2Cr	90L	30L	30L	(1.6Cr)	ARR run rate 10Cr+
Year 2	12Cr	7Cr	5Cr	5Cr	3.4Cr	Series A + expansion
Year 3	35Cr	16Cr	19Cr	19Cr	22.4Cr	Profitability + bank job market

07

Workflow Architecture

Internal product workflows — how the platform operates end to end

7.1 Student Daily Workflow

AM07:00 Wake & Review	AM07:15 Flashcard Review	AM07:30 Scheduled Study	PM12:00 Lunch Study	PM20:00 Evening Session	PM21:30 Progress Check
Push notification: '3 flashcard reviews due + 1 quiz session scheduled.' Opens app.	Reviews 15 spaced-repetition cards (auto-scheduled from yesterday's study). Marks Easy/Hard.	Follows today's AI-generated schedule: 30 min Bangladesh Affairs quiz (adaptive difficulty).	Opens Chapter Notes on mobile — reads AI-summarised chapter on Liberation War.	60-min deep study: Math Solver for 5 problems + Writing Assistant for one essay answer.	Reviews Knowledge Gap radar — Bangla improved. Pass probability went from 61% to 63%.

7.2 Coaching Center Daily Workflow

08:00 Plan Batch	09:00 Create Quiz	10:00 Conduct Class	11:30 Assignment Out	12:00 Review Analytics	18:00 Material Prep
Teacher opens Lesson Plan Generator — selects Week 12, Bangladesh Affairs — gets full plan in 60 sec.	Generates 30-question MCQ quiz on Mughal Period via Quiz Creator — branded PDF exported for class.	Teaches with AI Copilot sidebar — confusion alert fires on Q7. System suggests 2 follow-up questions.	Pushes 15-question homework assignment digitally. Students submit via app or photo.	Opens class dashboard — 8 students below 50% accuracy. Sends personalised review notes.	Generates tomorrow's handout + slide deck for General Science topic. Downloads branded PDF.

7.3 Platform Backend Workflow (Technical)

System Layer	What It Does	Technology Approach
Data Ingestion Layer	Captures every student action: questions answered, time spent, accuracy rates, revision completions	Event streaming (Kafka/Redis) — real-time pipeline to analytics DB
IRT/Adaptive Engine	Recalculates ability estimates after each answer; selects next optimal question from bank	Python ML service — IRT model + vector similarity question selection

System Layer	What It Does	Technology Approach
Knowledge Graph	Maintains subject-chapter-topic taxonomy; links questions to syllabus nodes	Graph DB (Neo4j) — relationship-aware question tagging
AI Content Generation	Generates questions, notes, lesson plans, assignments, infographics on demand	LLM API (Claude/GPT) with Bangla fine-tuning layer
Personalisation Engine	Runs Study Schedule, Revision Planner, and Gap Analyzer — per user, daily	ML pipeline: collaborative filtering + rule-based scheduling
Notification System	Push notifications for review reminders, progress milestones, streak alerts	Firebase FCM + in-app notification queue
B2B Analytics Pipeline	Aggregates class performance data; builds coaching center dashboards	PostgreSQL + BI layer (Metabase/custom)
Payment Processing	bKash, Nagad, card payments; subscription lifecycle management	SSLCommerz / AamarPay gateway + webhook-based lifecycle

08

Customer Acquisition & Connection Flow

How Revinr finds, converts, and onboards every customer type

8.1 B2C Acquisition Funnel

Funnel Stage	Channel	Action / Content	Conversion Rate	Volume (M12)
AWARENESS	Facebook BCS Groups (10M+ members)	Viral infographics + topic flashcards shared by users	Impression → Click: 2-4%	500K impressions/mo
AWARENESS	YouTube (BCS content creators)	Platform demo video + testimonial content	View → Visit: 1.5%	200K views/mo
AWARENESS	Word of Mouth / Referral	Friend referral with BDT 50 credit reward	Referral → Signup: 35%	2,000 referrals/mo
INTEREST	Free Tier Signup	Email or phone signup — immediate access to core features	Visit → Signup: 12-18%	8,000 signups/mo
CONSIDERATION	Onboarding Diagnostic	20-min BCS diagnostic test — shows personalised gap report	Signup → Diagnostic: 65%	5,200/mo complete
INTENT	Paywall Encounter	7-14 days after signup — hits feature gate on adaptive quiz or chapter drill	Active → Paywall: 80%	4,160/mo encounter
CONVERSION	Payment	bKash/Nagad BDT 99 intro offer — low-friction mobile payment	Paywall → Paid: 18-25%	830/mo convert
RETENTION	Daily Engagement	Push notifications + streak system + progress reports	Paid → Active D30: 65%	541/mo retained
EXPANSION	Upgrade / Add-on	Approaching exam — upgrades to Premium or buys Viva pack	Standard → Premium: 20%	108/mo upgrade
ADVOCACY	Referral + Share	Shares infographic, sends referral link to friends in BCS group	Advocate rate: 30%	162/mo refer

8.2 B2B Acquisition Funnel — Coaching Centers

01 Prospecting	02 Outreach	03 Demo Call	04 Free Trial	05 Proposal	06 Onboarding	07 Expansion	08 Annual Lock-in
BD sales rep maps coaching centers by district. LinkedIn, local directories, and teacher networks used to identify decision-maker.	WhatsApp-first cold outreach (not email — BD coaching owners prefer WhatsApp). Video demo link shared.	30-min screen share showing quiz builder + class analytics + lesson plan generator for their specific subject.	14-day full-access trial. 3 teacher accounts, 50 student accounts. Onboarding support included.	Custom pricing proposal based on student count. 3-month pilot offered with exit option. Contract signed digitally.	Dedicated onboarding session (2 hours). Question bank seeded with center's subject preferences. First quiz created together.	After 60 days, upsell: more teacher seats, student accounts, Teaching Copilot, white-label branding.	At 3-month renewal, offer 12-month contract at 15% discount. Center's content library built = high switching cost.

8.3 Customer Onboarding Experience

Day	B2C Student Experience	B2B Teacher Experience	Goal
Day 1	Signup → 20-min BCS diagnostic → Knowledge Gap radar shown → First adaptive quiz played	Account setup → Subject preferences selected → First lesson plan generated → First quiz created	Immediate first value ('aha moment')
Day 2	Study schedule delivered → First chapter note generated → First flashcard deck created	First assignment sent to students → Auto-graded results reviewed	Product stickiness established
Day 3	Progress notification: 'You improved 4% in Bangladesh Affairs' → Revision reminder	Class analytics reviewed → 2 at-risk students flagged → Follow-up materials sent	Data loop activated
Day 7	Streak badge earned → First paywall encounter → Upgrade prompt	Week 1 review: batch performance report delivered to center owner	Conversion window opens
Day 14	Upgrade or churn decision point → BDT 99 intro offer displayed	14-day trial review call → Pilot contract offered	Revenue realisation
Day 30	D30 retention check → Pass probability score shown → Viva pack upsell if appropriate	30-day batch report → Expansion seats offered	LTV expansion

09

User Engagement & Retention Model

How Revinr creates daily habits, reduces churn, and maximises lifetime value

9.1 Engagement Mechanics — The Daily Habit Loop

The 5-Layer Engagement System

Layer 1 — TRIGGER: Push notification at personalised study time ('Your Bangladesh Affairs review is due. 12 minutes to go.').

Layer 2 — ACTION: Opens app → completes scheduled quiz or flashcard review (designed for 10-15 min sessions on mobile).

Layer 3 — REWARD: Immediate feedback: accuracy score, pass probability change, streak badge, subject improvement indicator.

Layer 4 — INVESTMENT: Each session builds the student's personal knowledge profile, making the app more personalised and harder to abandon.

Layer 5 — COMMITMENT: Study streak (like Duolingo), exam countdown, and class leaderboard (B2B) create social and emotional commitment.

9.2 Retention Mechanisms by Tier

Mechanism	Free Tier	Standard / Premium	B2B Coaching
Study Streak	Yes — 7-day max	Yes — unlimited + badges	Teacher class streak
Progress Notification	Weekly summary	Daily + milestone alerts	Student at-risk alerts
Pass Probability Score	Not visible (paywall)	Live + weekly trend	Class average visible
Knowledge Gap Radar	Subject-level only	Chapter-level drill-down	Per-student in dashboard
Exam Countdown	Yes	Yes + daily tasks generated	Batch exam timeline
Leaderboard	Not available	Cohort percentile rank	Class leaderboard
Re-engagement Email	Day 3 dormancy	Day 2 + Day 7 dormancy	Weekly batch reports
Content Freshness	Limited	New questions daily	New materials weekly
Human Touchpoint	FAQ bot	In-app chat support	Dedicated account manager

9.3 Churn Prevention Protocol

Churn Signal	Detection Method	Intervention	Timeline
No login for 2 days	Session tracking	Push: 'Your pass probability dropped while you were away'	Day 2 of dormancy
Streak broken	Streak counter	In-app message: 'Don't lose your 12-day streak — 5 min review saves it'	Immediately on break
Paywall bounce (no upgrade)	Conversion tracking	Re-targeting: BDT 50 credit offer for first payment	24h after bounce
Low quiz accuracy (< 40%)	Performance monitoring	'Your Math score dropped — here's a personalised recovery plan'	After 3 consecutive poor sessions
Approaching renewal	Subscription lifecycle	'Your plan renews in 7 days — here's your progress this month'	Day 23 of 30-day cycle
Cancellation intent	Cancellation flow trigger	Pause option offered (1 month free pause vs. cancel)	On cancel click
B2B: Low teacher activity	B2B dashboard monitoring	Account manager calls; offers 1-hr refresher training session	After 7 days of inactivity
B2B: Low student adoption	Student login rate tracking	Co-marketing campaign: teacher sends announcement to students	If adoption < 40%

10

SaaS Pricing Strategy

Tiered pricing, upgrade paths, and competitive positioning

10.1 B2C Pricing Tiers

Feature	Free	Standard BDT 299	Premium BDT 599	Viva BDT 1,499	Rationale
Adaptive Quiz	5/day	Unlimited	Unlimited	Unlimited	Free creates habit; paid unlocks depth
Knowledge Gap	Subject level	Chapter level	Chapter + history	Chapter + history	Chapter drill is key upgrade trigger
Study Schedule	Generic	Personalised	Full adaptive	Full adaptive	Personalisation is primary value prop
Chapter Notes	3/month	Unlimited	Unlimited	Unlimited	Early freebie; unlimited at Standard
Flashcards	3 decks	Unlimited	Unlimited + offline	Unlimited + offline	Viral sharing = free feature
Pass Probability	Not shown	Current score	Score + trend	Score + trend	Paywall trigger — high motivation
Math Solver	10/day	Unlimited	Unlimited + photo	Unlimited + photo	Photo = Premium differentiator
Writing Assistant	Not available	3 sessions/mo nth	Unlimited	Unlimited	Premium gateway feature
AI Debate (Viva)	Not available	Not available	Not available	Unlimited	Viva-only premium pack
Concept Maps	Not available	5/month	Unlimited	Unlimited	Standard+ feature
Human Expert Review	Not available	Not available	2/month included	5/month included	Premium monetisation

10.2 B2B Pricing Tiers

Plan	Basic BDT 5K/mo	Pro BDT 12K/mo	Enterprise BDT 25K+/mo	Annual Discount
Teacher Accounts	3	10	Unlimited	Same tier, 15% off
Student Accounts	100	500	Unlimited	Same tier, 15% off
Question Bank Access	Read-only	Read + export	Full API access	—
Quiz Creator	Yes	Yes	Yes + white-label	—
Lesson Plan Generator	Yes	Yes	Yes + batch generate	—
Assignment Generator	Yes	Yes	Yes + auto-schedule	—
Class Analytics	Basic	Advanced	Full BI + export	—
Teaching Copilot	Not included	Add-on BDT 3K/mo	Included	—
White-label Branding	Not included	Add-on BDT 2K/mo	Included	—
Dedicated Account Manager	Not included	Not included	Included	—
SLA / Uptime Guarantee	99.0%	99.5%	99.9%	—

11

Go-to-Market Strategy

Channel strategy, launch sequencing, and growth levers

11.1 Launch Phases

Phase	Activity	Channel	Target Metric	Timeline
Pre-Launch	BCS influencer partnerships, Facebook group seeding, waitlist landing page	Facebook, YouTube, WhatsApp	5,000 waitlist signups	Month 1-3
Soft Launch	Waitlist converts to free tier, infographic campaign, 200 beta users	Organic + referral	200 active beta users	Month 4
Public Launch	bKash-promoted BDT 99 offer, Facebook paid ads, BCS center outreach	Paid + organic + B2B	500 paying users	Month 4-5
Scale	Content flywheel active, B2B pilot centers publishing results, referral programme	All channels	3,000 paying users	Month 6-12
Expansion	Bank job module launch, HSC admission campaign, Android 5-star push	New segments	25,000 MAU	Month 9-12

11.2 Marketing Channel Mix

Channel	Budget Allocation	Primary Goal	Expected CAC	Volume
Facebook Groups (organic)	0 — viral content	Awareness + Acquisition	BDT 0 (organic)	High — 10M+ audience
Facebook Paid Ads	30% of marketing budget	B2C acquisition	BDT 300–500	Scale phase
YouTube (BCS creators)	20% of marketing budget	Awareness + trust	BDT 200–400	Pre-launch seeding
WhatsApp B2B Outreach	10% of marketing budget	B2B coaching leads	BDT 5K–15K (B2B)	Direct, high-conversion
Referral Programme	15% of marketing budget	Viral acquisition	BDT 100–200	Always-on
Google Search Ads	15% of marketing budget	High-intent acquisition	BDT 400–600	Scale phase
Content Marketing (blog/SEO)	10% of marketing budget	Organic acquisition	BDT 50–150 (long-term)	Compound over 6-12 months

12

Competitive Landscape

Full competitor analysis and Revnr's strategic positioning

12.1 Competitor Feature Matrix

Feature	Revnr	10 Min School	Shikho	Live MCQ	EduHive	Bohubrihi
Adaptive quiz (IRT)	Yes	No	No	No	No	No
Knowledge gap AI	Yes	No	No	No	No	No
Pass probability score	Yes	No	No	No	No	No
Viva simulation	Yes	No	No	No	No	No
Spaced repetition	Yes	No	No	No	No	No

White-label B2B	Yes	No	No	No	No	No

12.2 Competitive Positioning

Competitor	Strength	Weakness	Revinr Wedge
10 Minute School	Brand recognition, video library, BD trust	No AI personalisation; B2C only; no B2B SaaS	Adaptive AI + B2B tools; complement, not compete on content
Shikho	VC-backed, K-12 focus, polished UX	Not BCS-focused; no adaptive engine; no teacher tools	Own BCS vertical entirely; Shikho will not pivot to BCS
Live MCQ	BCS-specific question bank; known in BCS community	Static content only; no analytics; no personalisation	Offer 10x more value: diagnosis + prediction vs. just questions
EduHive	Early BCS focus; some model tests	Unfunded; no AI; limited features; small user base	Superior product + funding = acquire their user base
Bohubrihi	Corporate/professional; strong brand	Not exam-prep focused; premium pricing	Different market; no overlap on BCS

13

Technology Stack & Development Roadmap

Architecture decisions, build sequence, and team structure

13.1 Recommended Technology Stack

Layer	Technology	Rationale	BD Considerations
Mobile (Android)	React Native (primary)	Cross-platform — iOS + Android from one codebase; faster dev	Android-first — 85%+ of BD users are Android
Mobile (iOS)	React Native (Phase 2)	Same codebase as Android	iOS launch at Month 5-6
Frontend Web	Next.js + React	SSR for SEO; fast performance; B2B dashboard	Admin and coaching center dashboard
Backend API	Node.js (Express) + Python	Node for API; Python for ML/AI services	Strong BD developer pool for Node
AI/ML Services	Python (FastAPI) + scikit-learn	IRT engine, gap analyzer, recommendation in Python	Containerised — scales independently
LLM Integration	Anthropic Claude API	Bangla quality, safety, content generation	API cost decreasing; Bangla improving
Database (primary)	PostgreSQL	Reliable, ACID-compliant, free, rich BD expertise	Managed on AWS RDS or Supabase
Database (graph)	Neo4j or PostgreSQL with pgGraph	Knowledge taxonomy — subject-chapter-topic links	Start with PostgreSQL; migrate if needed
Cache	Redis	Session management, rate limiting, fast lookups	Managed Redis on AWS ElastiCache
Search	Elasticsearch / Meilisearch	Question bank search, content discovery	Meilisearch — simpler, faster setup
File Storage	AWS S3 + CloudFront CDN	PDF exports, images, audio narration files	CDN critical for BD connectivity variability
Notifications	Firebase FCM	Android push notifications — industry standard	Free tier sufficient for early scale

Layer	Technology	Rationale	BD Considerations
Payments	SSLCommerz / AamarPay	BD-specific payment gateway — bKash, Nagad, cards	Mandatory: bKash and Nagad from day 1
Analytics	Mixpanel + custom BI	User behavior tracking; business KPI dashboards	Mixpanel for events; custom for business metrics
DevOps	Docker + GitHub Actions + AWS	Containerised deployments; CI/CD pipeline	AWS Singapore region — lowest latency for BD

13.2 Team Structure

Role	Phase 1 (M1-4)	Phase 2 (M5-8)	Phase 3 (M9-12)	Monthly Cost (BDT)
Backend Engineers	2	3	4	50K–80K each
ML / AI Engineer	1	2	2	70K–120K each
Frontend / Mobile Engineer	1	2	2	50K–80K each
Product Manager	1	1	1	80K–120K
UX / UI Designer	0.5 (contract)	1	1	40K–70K
BCS Content Curator	1	2	2	30K–50K each
QA Engineer	0	1	1	35K–55K
B2B Sales (BD)	0	2	4	25K + commission
Customer Support	0	1	2	25K–35K each
Data Analyst	0	0.5 (contract)	1	45K–65K
Marketing Manager	0	1	1	40K–60K
Total Team Size	~7	~15	~20-22	—

14

Financial Projections — 3-Year Plan

Detailed P&L, growth scenarios, and key financial milestones

14.1 Three-Year Revenue Projection

Revenue Line	Year 1 (Conservative)	Year 1 (Base Case)	Year 1 (Optimistic)	Year 2	Year 3
B2C Free→Standard Conversion	600 users × BDT 299/mo	1,800 users × BDT 299/mo	4,500 users × BDT 299/mo	8,000 users	20,000 users
B2C Premium	150 × BDT 599/mo	400 × BDT 599/mo	1,000 × BDT 599/mo	2,500 users	8,000 users
B2C Viva Add-on	50 × BDT 1,499/mo	120 × BDT 1,499/mo	300 × BDT 1,499/mo	800 users	3,000 users
B2B Coaching (Basic)	8 × BDT 5K/mo	30 × BDT 5K/mo	70 × BDT 5K/mo	150 centers	400 centers
B2B Coaching (Pro+Enterprise)	2 × BDT 12K/mo	15 × BDT 12K/mo	35 × BDT 15K/mo	80 centers	250 centers
Question Bank API	—	BDT 5L/yr	BDT 15L/yr	BDT 50L/yr	BDT 2Cr/yr
Expert Review Marketplace	—	BDT 3L/yr	BDT 8L/yr	BDT 25L/yr	BDT 1Cr/yr
TOTAL ARR	~BDT 3.6 Crore	~BDT 10.8 Crore	~BDT 27 Crore	BDT 35–60 Crore	BDT 100–180 Crore

14.2 Three-Year P&L Summary (Base Case)

P&L Line	Year 1	Year 2	Year 3
Gross Revenue	BDT 10.8 Crore	BDT 42 Crore	BDT 140 Crore
Less: Platform & Payment Fees	(BDT 0.65 Crore)	(BDT 2.5 Crore)	(BDT 8.4 Crore)
Net Revenue	BDT 10.15 Crore	BDT 39.5 Crore	BDT 131.6 Crore
Less: AI Inference & Cloud	(BDT 1.0 Crore)	(BDT 3.2 Crore)	(BDT 9.2 Crore)
Less: Content Curation	(BDT 0.7 Crore)	(BDT 2.0 Crore)	(BDT 5.0 Crore)
Gross Profit	BDT 8.45 Crore (83%)	BDT 34.3 Crore (87%)	BDT 117.4 Crore (89%)
Less: Engineering Team	(BDT 2.4 Crore)	(BDT 6.5 Crore)	(BDT 14.0 Crore)
Less: Sales & Marketing	(BDT 2.0 Crore)	(BDT 7.0 Crore)	(BDT 18.0 Crore)
Less: G&A (HR, Legal, Admin)	(BDT 0.8 Crore)	(BDT 2.5 Crore)	(BDT 6.0 Crore)
EBITDA	BDT 3.25 Crore (30%)	BDT 18.3 Crore (43%)	BDT 79.4 Crore (57%)
Less: Phase 1 Build Investment	(BDT 1.6 Crore)	—	—
Net Operating Income	BDT 1.65 Crore	BDT 18.3 Crore	BDT 79.4 Crore

15

Risk Analysis & Mitigation

Comprehensive risk register with probability, impact, and response strategies

15.1 Risk Register

Risk	Prob.	Impact	Category	Description	Mitigation Strategy
Bangla AI quality issues	HIGH	HIGH	Technical	LLMs perform significantly worse in Bangla than English — errors in generated questions/notes will damage trust	Human-in-loop review pipeline; 500-Q QA gate; fine-tune on BCS Bangla corpus; flag AI-generated content to users
BCS copyright infringement	HIGH	HIGH	Legal	Exact reproduction of past BCS papers may attract BPSC legal action	Generate paraphrased AI variants; full IP legal review; never reproduce verbatim; counsel on record before launch
Slow user acquisition	MED	HIGH	Market	BD edtech market is noisy; digital CAC rising; students may not pay	Viral infographic loop; Facebook group seeding; BDT 99 intro offer; referral programme with BDT 50 reward
Price sensitivity / churn	MED	HIGH	Revenue	BD students are highly price-conscious; will cancel at first sign of value doubt	Freemium first; bKash micro-payments; pause option vs. cancel; strong daily engagement to justify payment
Competitor fast-follow	MED	MED	Competitive	10 Minute School or Shikho copies features within 12-18 months	Data moat: question bank + performance data compounds with usage — hard to replicate; depth in BCS they won't prioritise
BCS exam delays / cancellations	MED	MED	External	BPSC has history of delaying exams — kills urgency, slows subscriptions	Diversify early: bank job module at Month 6; HSC admission at Month 8 — same AI engine, new markets
Key person dependency	MED	MED	Operational	Loss of ML engineer or CTO creates critical capability gap	Documented architecture; knowledge sharing protocols; competitive retention package
B2B sales cycle too long	MED	MED	Revenue	Coaching center owners make slow decisions; 3-month pilot adoption is uncertain	WhatsApp-first sales approach; free trial lowers barrier; early design partner program with 5 committed centers
Data privacy / security breach	LOW	HIGH	Technical	Student data leak destroys trust in an education context	GDPR-equivalent data handling; encrypted storage; penetration testing before launch; no 3rd-party data sale policy

Risk	Prob.	Impact	Category	Description	Mitigation Strategy
Currency / inflation risk	LOW	MED	Financial	BDT inflation may erode real revenue; cost of AWS (USD) increases relative to BDT revenue	Price in BDT; annual repricing built into contracts; partial hedge via B2B annual contracts

16

Open Market Scope & Expansion Opportunities

Untapped markets, new product lines, and long-term platform potential

16.1 Phase 2 Market Expansions (Already Planned)

Market	Size	Feature Overlap	Timeline
Bank Job Preparation (Bangladesh Bank, Sonali Bank, NBR etc.)	2M+ candidates/year	85% — same quiz engine + question bank	Month 6 — same platform, new subject taxonomy
University Admission (BUET, DU, Medical Colleges)	1.5M+ HSC graduates	75% — notes, flashcards, adaptive quiz	Month 8 — new question sets + admission-specific analytics
Government Job (Primary, Secondary Teacher Recruitment)	500K+ applicants/year	80% — MCQ + assessment engine	Month 9 — exam-specific question tagging

16.2 Untapped Open Scope — Future Product Lines

Opportunity	Market Size	Investment Required	Revenue Model	Priority
Live Online Classes (integration with coaching centers' Zoom/Meet sessions)	All coaching centers	Medium — integration dev	Rev-share: 15-20% of class fees	HIGH — Year 2
Revinr Marketplace (connect students to private tutors for Written/Viva)	50K+ premium BCS students	Low — marketplace platform	20-25% transaction commission	HIGH — Year 2
White-label Platform (sell Revinr tech to other countries' exam prep companies)	India UPSC, Pakistan CSS, Nepal Loksewa	High — localisation + BD support	SaaS license: \$2K-\$20K/month	HIGH — Year 3
AI-Powered Certificate Programs (Revinr-branded short courses with AI assessment)	Corporate upskilling + students	Medium — curriculum dev	BDT 2K-15K per certificate	MED — Year 2
Parent Dashboard (real-time progress visibility for HSC/K-12 students' parents)	3M+ parents of K-12 students	Low — UI extension	Included in family plan upgrade	MED — Year 2

Opportunity	Market Size	Investment Required	Revenue Model	Priority
Revinr Physical Study Centers (offline-to-online hybrid coaching with Revinr tech)	200 district cities in BD	High — real estate + ops	Franchise model: 20% revenue share	LOW — Year 3-4
EdTech API Marketplace (sell individual AI tools to other platforms as APIs)	BD + South Asia EdTech market	Low — API packaging	API pricing: per-call or monthly	MED — Year 2
Language Learning (English proficiency for BD corporates and job market)	5M+ urban professionals	Medium — new content vertical	BDT 500-1,500/month premium	LOW — Year 3
Government & NGO Licensing (BRAC, government schools, upazila education)	25,000+ schools + NGOs	Medium — procurement process	Annual institutional license	MED — Year 3
School ERP + EdTech Bundle (lesson plans + grades + parent comms + assessments)	4,000+ private schools	High — full ERP development	SaaS: BDT 10K-50K/school/month	LOW — Year 4

16.3 Regional Expansion — Beyond Bangladesh

South Asia EdTech Market — Revinr's Exportable Technology

INDIA: UPSC (1 million+ applicants/year), SSC, IBPS bank exams — same MCQ pattern, similar coaching center culture. Market 15x larger than BD.

PAKISTAN: CSS (Civil Service of Pakistan) + FPSC exams — 300K+ annual applicants. Urdu language fine-tuning needed; platform architecture identical.

NEPAL: Loksewa Aayog (Public Service Commission) — 200K+ applicants. Nepali language support. Similar exam format.

SRI LANKA: Combined Services Exam — 150K+ applicants. English and Sinhala support needed.

MYANMAR: Civil Service Exam preparation — 400K+ applicants. English-medium materials applicable.

TOTAL SOUTH ASIA TAM: 15-20 million government exam aspirants annually. Revinr's platform is inherently exportable — only language fine-tuning required per country.

17

Investment Ask & Next Steps

What we need, when we need it, and what success looks like

17.1 Funding Requirements

Budget Item	Phase 1 (M1-4)	Phase 2 (M5-8)	Phase 3 (M9-12)
Engineering Team (salaries)	BDT 60-80L	BDT 120-150L	BDT 160-200L
AI & Cloud Infrastructure	BDT 10-15L	BDT 20-30L	BDT 35-50L
BCS Content Curation & QA	BDT 15-20L	BDT 25-35L	BDT 30-40L
Sales & Marketing	BDT 0	BDT 40-60L	BDT 80-120L
Legal, Compliance & IP	BDT 5-8L	BDT 8-12L	BDT 10-15L
Office & Operations	BDT 5-8L	BDT 10-15L	BDT 15-20L
Product & UX Design	BDT 8-12L	BDT 15-20L	BDT 15-20L
Contingency (10%)	BDT 10-15L	BDT 25-35L	BDT 35-50L
TOTAL PHASE BUDGET	BDT 1.1–1.6 Crore	BDT 2.6–3.6 Crore	BDT 3.8–5.2 Crore
CUMULATIVE INVESTMENT	BDT 1.1–1.6 Crore	BDT 3.7–5.2 Crore	BDT 7.5–10.4 Crore

17.2 Milestone Map — 12 Months

Month	Product Milestone	Revenue Milestone	Team Milestone	Investment Gate
Month 1	Architecture + BCS taxonomy built	BDT 0	7 people hired	Phase 1 funds released
Month 2	Adaptive Quiz + Question Bank v1 live (internal)	BDT 0	Content curator onboarded	—
Month 3	Knowledge Gap + Assessment + Flashcards (beta)	First 50 beta users (free)	—	—
Month 4	Android MVP launch + bKash payments live	500 paying users — BDT 99 offer	—	Series Seed reviewed

Month	Product Milestone	Revenue Milestone	Team Milestone	Investment Gate
Month 5	B2B pilot program: 5 coaching centers live	BDT 10L MRR	5 sales hires	Phase 2 funds released
Month 6	iOS launch + Performance Forecasting + Viva prep	BDT 25L MRR	Marketing team active	—
Month 8	Bank job module + Writing Assistant + Language Coach	BDT 50L MRR; 25 B2B centers	10 B2B sales reps	—
Month 10	Teacher Tools complete (Lesson Plans + Copilot)	BDT 75L MRR; 40 B2B centers	Full team 20+ people	Phase 3 gate
Month 12	All 25 features live + full B2B dashboard	BDT 90L MRR (10.8Cr ARR)	Series A fundraising active	Series A target: BDT 30-50Cr

17.3 Immediate Next Steps — CEO Decision Required

Action Items for the Next 30 Days

1. APPROVE Phase 1 budget: BDT 1.1–1.6 Crore. Release funds in two tranches — BDT 60L at start, BDT 60L at Month 2 milestone.
2. APPOINT Product Manager and Lead ML Engineer — these two hires are the critical path for Phase 1 delivery.
3. ENGAGE legal counsel for BCS question copyright review and platform data privacy compliance.
4. IDENTIFY 5 BCS coaching centers as early B2B design partners — offer free 6-month access in exchange for co-development feedback.
5. BEGIN BCS syllabus content curation immediately — this work starts before the technical build and seeds the question bank.
6. ESTABLISH Bangla AI accuracy benchmarking framework — define quality thresholds before any AI-generated content is shown to users.
7. COMMISSION brand identity refresh for Revinnr platform — app icon, onboarding visuals, B2B proposal template.

The Strategic Window

The global AI-EdTech wave is arriving. Infrastructure costs are falling. Smartphone penetration is rising. The BCS candidate pool grows every cycle.

No competitor has deployed AI personalisation in Bangladesh's exam preparation market. The first platform to build a data moat — adaptive quiz data, performance data, knowledge gap data — will be increasingly difficult to displace.

Every month of delay is a month of compounding competitive disadvantage.

Revinnr has the product vision, the market clarity, and the team foundation. The decision to move is the only remaining variable.
